Polyester, silk

Description
Individually designed tie with logo printing is a part of a branded outfit or a gift for special occasions. Personalized tie can become a great promotional tool to represent an exceptional event, institution, school, sports club, etc.

These ties are printed with logo in one position or a repetitive logo (pattern) over the entire surface of the tie by screen printing. The tie can be chosen from existing colours and patterns or made of the individual design. You can choose the colour of the fabric from about 600 different types of silk or polyester yarn that best suits your expectations and desired labelling.

The printing is applied by the latest technologies, which guarantees quality and a detailed image. If your desired marking consists of small details, when the weaving becomes impossible, printing is a great alternative. Please contact us for labelling requirements.

Production from 20 pcs.

Material: polyester or silk. Silk and polyester fabrics are produced in Italy, Germany and England.

Delivery time: Design preparation 2-3 days

Prototype preparation 10-15 working days.

Order production up to 30 working days after prototype approval. Depending on the scope of the order.

These products are made exclusively according to the customer's needs and design, so it is a great opportunity to produce something valuable and individual. When ordering a tie with a logo, you have complete freedom to choose its design. Our graphic designers will design the project according to your requirements and fashion trends.

Submit your existing label design and we will prepare a product visualization. If you do not have a project - we will create it for you.

If you need a consultation on this product - please contact the indicated contacts.

You can see examples in our office, address in Vilnius, Konstitucijos ave. 23a 102 room
